IN SOLIDARITY

WOULD YOU BURN MONEY????

Every time you sign up for SOLD time you are burning money. Our contract is going to expire before we all know it and then what?? There is no strike fund, it was voted down by the members. The short term satisfaction is not going to be worth the long term suffering. Why not get paid to sit in your seat and wait 5-10 minutes between calls. Trust us, if we stop taking it, magically the call volume will increase. We all must stay strong together!!

5 REASONS NOT TO ACT

1. Your absence payout and profit sharing can be impacted. (less not more)
2. This is a way the company gets around the negotiated TA position, showing favoritism and not done by seniority or job knowledge.
3. You most likely are working for less money than the job you are acting for pays.
4. You are not able to work overtime.
5. Anything an acting manager does can be used against a member for discipline. (Review Article XXV)
