IN SOLIDARITY

## MAJOR WIN FOR UNIONS!!

As we all know last week we have reached a tentative four-year contract extension with the company. This four-year extension comes with increased wages and very minimal increases for contributions. At the end of this extension IBEW members will see an

increase of **11.25%** in wages. This is a

major win for us!! It avoids the possibility of a work stoppage and also shows the strength of the union. It is important to know your Business Manager Barb Carson was at the table with the Bargaining Committee and involved in negotiations. This means your interests and concerns were represented when it mattered. We are now seeing a improvement in the relationship with the company and us. This extension is a step in the right direction for future negotiations!

## RATIFICATION VOTES ARE ONGOING!!!

Ratification voting is continuing this week throughout the foot print of both IBEW and CWA. The overall turnout and response has been excellent. Right now the announcement on the result is set for August 10th.
