IN SOLIDARITY

## IN SOLIDARITY

What makes unions work is the solidarity of its members. We all have heard the saying, “you are only as strong as your weakest link.” Unions create a sense of belonging for ANYONE in the workforce. Unions promote DIVERSITY in the workplace. In order to build true solidarity, unions must reach out to all to create an equal-opportunity environment for all. With that in mind, it is important to be mindful of our actions and words while working in such a diverse environment. At the end of the day we ALL stand united together for the same cause!!
