Assistant Business Manager Spotlight!!

Hi, My name is Anita Arezzo-Miga. I have been a member of 2213 for almost 26 years. I became a steward in 2003 and since then I have served as Vice Chair, Unit Chair, Recording Secretary and in 2012 I became an Assistant Business Manager.

I am married and have 2 kids, one in middle school, one in elementary school. My family keeps me very busy outside of work. I have made sure my sons understand and appreciate unionism!

I never had any experience working in a union environment until I started at Verizon in 1994. Being involved is important to me. It makes me fully aware of all the things having a contract and a strong union presence gives us. Seeing negotiations first hand and being out on the picket lines several times over the course of my career has shown me the importance of our solidarity and unity.

Under our current Business Manager Barb Carson, I believe faith in our local is at an all time high. We know what's going on and we feel included. None of us doubt that she has our back and is always looking out for us. When we trust and support our leadership, we can accomplish anything! I am grateful to be a part of this team and serve the membership every day!
