**LOCAL 2213 NEWSBEAT !!!**

This week we shine the spotlight on our **Business Service Fulfillment Center (BSFC)**. They are located in Menands, NY, which is near Albany. They're a small team that handles BIG issues with both copper and fiber orders.

Orders in fallout go directly to them for resolution. After the problem is fixed, they make sure it flows correctly through the system. They also help other offices via AIMS chats. They work in NSOP, IVAPP, and IGO just to name a few. Jennifer Serian is the Union Steward for this group.
